A R C H I T E C T S

The design for this cenotaph began in 1965. Located three blocks from the spot where president Kennedy was assassinated, the monument was conceived as a 50' by 50' outdoor room with 30' high walls assembled from pre-cast concrete slabs 2 1/2' square in section. The walls are raised 2 1/2' above the ground. In the center of the enclosure is an inscribed slab of black granite.
